

Fireproof Your Christmas Tree

Nothing beats the fragrance and beauty of a live Christmas tree. This recipe for fireproofing your Christmas Tree has been used by the Nelson Family and friends for over 25 years and will make your tree safe and longer lasting.

Anita makes up this solution ahead of time and stores it in used, rinsed 1 gallon Bleach bottles. It usually takes 2-3 batches of solution to water an 8' tree for 6 weeks.

Fireproof Recipe

2 gallons warm water

2 oz. Chlorine Bleach

1/2 tsp. Borax*

2 cups Clear Corn Syrup

2 oz. Epsom Salts*

* Epsom Salts are found in the Pharmacy Section of your grocery store and Borax is found in the Detergent Section.
