

Beginners Organic Lawn Program

This is a year long plan to switch to an all organic approach to lawn care. Organic Gardening is safe for you, your, pets and the environment. This plan will boost your soil, feed microbes, and get a healthy organic lawn that in years to come will not need as much maintenance.

February	Horticultural Molasses and Corn Gluten Meal spray or granules to prevent fungus and feed the soil.
March	MicroLife Hybrid 20-0-5 (hot pink bag)
April	Top dress with Nature's Way Resources Leaf Mold compost. 1/4" thick will cover 50sq ft
May	MicroLife Hybrid 20-0-5 (hot pink bag)
June/July	Apply MicroLife Humates (purple bag)
August	Horticultural Molasses and Cornmeal to prevent fungus and feed the soil.
September	MicroLife Hybrid 20-0-5 (hot pink bag)
October	If brown patch pops up treat with MicroLife Brown Patch 5-1-3
November	Top dress with Nature's Way Resources Leaf Mold compost. 1/4" thick will cover 50sq ft
